TVS Motor Co Ltd

Subsidiaries' losses dip; concerns over FCF

- 4QFY25 standalone EPS grew by 30% to Rs14.6, beating our estimate by 4%, while the normalized EBITDA margin stood at 12.5%, beating our estimate.
- The rising margin trend led to our 5% EBITDA upgrade for FY26F-27F. The automobile subsidiaries' losses declined; however, FCF remains negative.
- We maintain our REDUCE rating on the stock as its rich +2SD above-the-mean-level valuation overlooks the demand for funding international losses.

EBITDA margin continues to expand

TVS Motor Company's (TVS Motor) 4QFY25 EBITDA rose by 27% yoy and 8% qoq to Rs11.7bn, beating our estimate marginally while missing the Bloomberg consensus estimate by 1.3%. The production-linked incentive or PLI scheme benefit-adjusted EBITDA margin at 12.5% expensed 60bp on a qoq basis aided by a sharp rise in inventory (2% of sales), which is difficult to sustain. 4Q normalized EPS rose by 30% qoq and 60% yoy to Rs18, aided by prior-period PLI scheme benefit. Capex rose by 80% yoy to Rs18bn & investment in subsidiaries doubled to Rs22.6bn in FY25. Automobile subsidiaries' EBIT loss declined by 44% qoq to Rs1.1bn.

Management conference-call highlights

Management expects moderate growth in 1QFY26F due to the high base effect, with positive momentum expected to resume from May–Jun 2025F. Capex for FY26F is planned to remain at a level similar to that in FY25. Electric two-wheeler (EV2W) volume grew by 44% yoy, and a few new product launches are expected in the coming quarters. Premium motorcycle models are scheduled for launch by the end of FY26F from Norton (based in the UK). The export business outpaced industry growth in FY25, driven by growth in LatAm markets.

EBITDA upgrade by around 5% for FY26F-27F

We have raised volume estimates by 1% for FY26F–27F due to faster-than-industry growth in exports, which also translate into an increase in revenue. EBITDA estimates stand upgraded by 5%, aided by continued gains from the PLI scheme on the back of growing electric vehicle or EV volume & improved localization efforts, which would result in margin expansion of 40bp for FY26F–27F. PAT stands upgraded by 4-5% for the same period.

Automotive subsidiaries' EBIT losses decline

The standalone business continues to gain momentum, with cost-saving initiatives driving the EBITDA margin expansion while the sustained investments in subsidiaries keep free cash flow negative. That said, easing subsidiary losses provide some comfort. With the stock trading at +2SD on forward P/E and +1SD on P/BV, we retain our REDUCE rating on it. We raise our target price to Rs2,154 (from Rs1,901 earlier), based on 31x one-year forward P/E and valuing TVS Credit at Rs32/share (1.5x FY24 BV). Key upside risk: Better pricing environment in two-wheelers aiding the sustained upward margin trajectory.

Subsidiaries' losses dip; concerns over FCF

Management conference-call highlights >

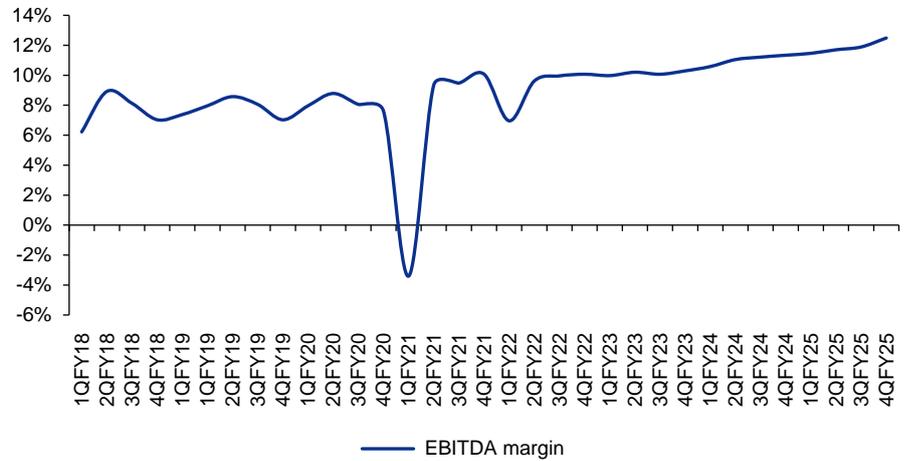

- **Industry performance and outlook:** In FY25, the domestic two-wheeler industry grew by ~7% while TVS Motor outperformed with a 9% growth. Moderate growth is expected in 1QFY26F due to the base effect while a positive momentum is likely from May-Jun 2025F due to the marriage season, normal monsoons, income-tax rebates, and infrastructure investments. The rural market pick-up is expected later during the year.
- **Financial performance:** 4QFY25 revenue was Rs93.42bn (PLI scheme benefit adjustment). 4Q EBITDA margin was at 14.0%, including the PLI benefit of previous quarters. The actual EBITDA margin stood at 12.5% vs. 11.3% in 4QFY24 on the back of cost-saving initiatives.
- **PLI scheme:** The scheme contributed 0.5% to margin in 4Q on a normalized basis. The company expects PLI benefits to continue and grow as the EV volume and localization improve.
- **Electric vehicle portfolio:** EV2W sales stood at 2,80,000 units (+44% yoy) in FY25. The company expanded its EV portfolio, with the launch of iQube with 2.2kWh, 3.4kWh, and 5.1 kWh battery options, and in the next few quarters it will launch a few more. In three-wheeler EVs, TVS King Max was launched during the quarter. Going ahead, management's endeavour is to expand the footprint. The EV portfolio revenue stood at Rs33.64bn in FY25 and at Rs.8.89bn in 4QFY24.
- **EV industry:** 2W EV retail sales rose from ~500,000 units in FY24 to ~1.25 m units in FY25, up 31% yoy. EV penetration in the overall Indian two-wheeler market reached an average 6.8% in FY25.
- **Scooter vs. motorcycle:** Scooters now comprise ~38–39% of the industry mix - it is likely to rise further on the back of convenience and rise of EV scooters. TVS Motor's product strategy is to offer segmented 2Ws (e.g., Zest, Jupiter, Ntorq) based on consumer needs.
- **Rural vs. urban:** Rural markets rebounded strongly in 2Q–3QFY25 while they slowed in 4Q, but are expected to revive in FY26F. Scooter penetration is still more urban-centered, but rural uptake is improving gradually.
- **Export business:** Revenue from exports stood at Rs23.91bn in 4QFY25 and the volume was 1.25m units (+24.5% yoy vs. industry growth of 22% yoy). The growth was mainly led by LATAM (Mexico, Colombia, Guatemala) and Asia, while it was mixed in Africa (recovery expected in a few quarters).
- **Spare parts business:** 4QFY25 spare parts revenue was at Rs9.07bn. Going ahead, steady growth, driven by improved service network, is expected.
- **Other income:** Other income includes Rs1,002.7m of dividend received from its subsidiary and Rs890.8mn being the loss on fair valuation of investments held by the company.
- **Investments:** In FY25, the total investment was Rs20bn for product development with Norton, UK (which is nearing product launch in 4QFY26F), expansion in TVS Credit, TVS Digital and the e-bicycle business in Europe. In FY26F, a similar investment pace is expected.
- **Capex:** Capex stood at Rs18bn in FY25 (vs. Rs11bn in FY24). The focus areas were new product development (ICE vehicles & EVs), capacity expansion (e.g., Jupiter production increase), EV manufacturing, and also components.
- **TVS Credit:** The loan book size is Rs266bn, with PBT at Rs10bn (+35% yoy) in FY25, and asset quality (GNPAs) at 2.9%. Going ahead, a conservative lending approach will be maintained. The key focus areas would be expansion, digital initiatives, and stable disbursements despite adverse macroeconomic conditions.
- **CNG scooter:** TVS Motor has a CNG scooter ready and its launch depends on market readiness, and the availability of compressed natural gas or CNG infrastructure.

SOURCE: INCRED RESEARCH, COMPANY REPORTS

DISCLAIMER

This report (including the views and opinions expressed therein, and the information comprised therein) has been prepared by Incred Research Services Private Ltd. (formerly known as Earnest Innovation Partners Private Limited) (hereinafter referred to as "IRSPL"). IRSPL is registered with SEBI as a Research Analyst vide Registration No. INH000011024. Pursuant to a trademark agreement, IRSPL has adopted "Incred Equities" as its trademark for use in this report.

The term "IRSPL" shall, unless the context otherwise requires, mean IRSPL and its affiliates, subsidiaries and related companies. This report is not directed or intended for distribution to or use by any person or entity resident in a state, country or any jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject IRSPL and its affiliates/group companies to registration or licensing requirements within such jurisdictions.

This report is being supplied to you strictly on the basis that it will remain confidential. No part of this report may be (i) copied, photocopied, duplicated, stored or reproduced in any form by any means; or (ii) redistributed or passed on, directly or indirectly, to any other person in whole or in part, for any purpose without the prior written consent of IRSPL.

The information contained in this report is prepared from data believed to be correct and reliable at the time of issue of this report.

IRSPL is not required to issue regular reports on the subject matter of this report at any frequency and it may cease to do so or change the periodicity of reports at any time. IRSPL is not under any obligation to update this report in the event of a material change to the information contained in this report. IRSPL has not any and will not accept any, obligation to (i) check or ensure that the contents of this report remain current, reliable or relevant; (ii) ensure that the content of this report constitutes all the information a prospective investor may require; (iii) ensure the adequacy, accuracy, completeness, reliability or fairness of any views, opinions and information, and accordingly, IRSPL and its affiliates/group companies (and their respective directors, associates, connected persons and/or employees) shall not be liable in any manner whatsoever for any consequences (including but not limited to any direct, indirect or consequential losses, loss of profits and damages) of any reliance thereon or usage thereof.

Unless otherwise specified, this report is based upon reasonable sources. Such sources will, unless otherwise specified, for market data, be market data and prices available from the main stock exchange or market where the relevant security is listed, or, where appropriate, any other market. Information on the accounts and business of company(ies) will generally be based on published statements of the company(ies), information disseminated by regulatory information services, other publicly available information and information resulting from our research. While every effort is made to ensure that statements of facts made in this report are accurate, all estimates, projections, forecasts, expressions of opinion and other subjective judgments contained in this report are based on assumptions considered to be reasonable as of the date of the document in which they are contained and must not be construed as a representation that the matters referred to therein will occur. Past performance is not a reliable indicator of future performance. The value of investments may go down as well as up and those investing may, depending on the investments in question, lose more than the initial investment. No report shall constitute an offer or an invitation by or on behalf of IRSPL and its affiliates/group companies to any person to buy or sell any investments.

The opinions expressed are based on information which is believed to be accurate and complete and obtained through reliable public or other non-confidential sources at the time made (information barriers and other arrangements may be established, where necessary, to prevent conflicts of interests arising. However, the analyst(s) may receive compensation that is based on his/their coverage of company(ies) in the performance of his/their duties or the performance of his/their recommendations. In reviewing this report, an investor should be aware that any or all of the foregoing, among other things, may give rise to real or potential conflicts of interest. Additional information is, subject to the duties of confidentiality, available on request. The report is not a "prospectus" as defined under Indian Law, including the Companies Act, 2013, and is not, and shall not be, approved by, or filed or registered with, any Indian regulator, including any Registrar of Companies in India, SEBI, any Indian stock exchange, or the Reserve Bank of India. No offer, or invitation to offer, or solicitation of subscription with respect to any such securities listed or proposed to be listed in India is being made, or intended to be made, to the public, or to any member or section of the public in India, through or pursuant to this report.

The research analysts, strategists or economists principally responsible for the preparation of this research report are segregated from the other activities of IRSPL. Information barriers and other arrangements have been established, as required, to prevent any conflicts of interests.

The research analysts, strategists or economists principally responsible for the preparation of this research report are segregated from the other activities of IRSPL. Information barriers and other arrangements have been established, as required, to prevent any conflicts of interests.

IRSPL may have issued other reports (based on technical analysis, event specific, short-term views, etc.) that are inconsistent with and reach a different conclusion from the information presented in this report.

Recommendation Framework**Stock Ratings**

Definition:

- Add** The stock's total return is expected to exceed 10% over the next 12 months.
- Hold** The stock's total return is expected to be between 0% and positive 10% over the next 12 months.
- Reduce** The stock's total return is expected to fall below 0% or more over the next 12 months.

The total expected return of a stock is defined as the sum of the: (i) percentage difference between the target price and the current price and (ii) the forward net dividend yields of the stock. Stock price targets have an investment horizon of 12 months.

Sector Ratings

Definition:

- Overweight** An Overweight rating means stocks in the sector have, on a market cap-weighted basis, a positive absolute recommendation.
- Neutral** A Neutral rating means stocks in the sector have, on a market cap-weighted basis, a neutral absolute recommendation.
- Underweight** An Underweight rating means stocks in the sector have, on a market cap-weighted basis, a negative absolute recommendation.

Country Ratings

Definition:

- Overweight** An Overweight rating means investors should be positioned with an above-market weight in this country relative to benchmark.
- Neutral** A Neutral rating means investors should be positioned with a neutral weight in this country relative to benchmark.
- Underweight** An Underweight rating means investors should be positioned with a below-market weight in this country relative to benchmark.
