IndusInd Bank

New accounting lapses surprise negatively

- IIB posted a net loss of Rs22bn in 4Q, mainly owing to accelerated provisioning on fresh accounting lapses i.e. misclassification of MFI loans as standard.
- IIB's chairman indicated that selection process of the new CEO is in an advanced stage and the RBI has asked to submit the proposal by Jun 2025.
- We trim our target price to Rs840 (9% upside) as we cut our estimates post fresh accounting lapses. Risk-reward appears balanced at 0.8x FY27F BV.

The impact owing to accounting lapses rises to Rs49bn vs Rs28bn

IndusInd Bank (IIB) reported a net loss of Rs22bn in 4QFY25. Adjusting for accounting lapses (~Rs49bn pre-tax, vs. Rs28bn disclosed earlier), the bank would report a pre-tax profit of Rs21-24bn. The new disclosure of accounting lapses was mainly owing to misclassification of certain microfinance or MFI loans as standard assets, which are now classified as NPAs (~Rs19bn, of which provision has been made for 95% during the quarter) and incorrectly recorded fee income of Rs1.7bn. Reported margin stood at 2.25% in 4QFY25, mainly impacted by accounting lapses and reclassification to other income (Rs7.6bn). Adjusting for this, core margin would be closer to 3.5%. Other income declined QoQ (Rs7.1bn vs. Rs23.5bn last quarter) as the bank took a Rs19.6bn hit on derivatives accounting lapse. Adjusting for this, other income would be ~Rs25bn (vs. 23.5bn last quarter). Opex grew by 10% YoY (+6% QoQ). Despite utilization of contingent buffers (~150bp), credit costs inched up QoQ (272bp vs. 193bp) mainly led by ~200bp of accelerated provision on misclassification of MFI loans. The CET-1 ratio remains healthy at 15.1%. IIB holds healthy liquidity (avg. LCR at 139% for QTD Jun 2025).

Update on management transition; comfortable 4Q/FY25 financials

IIB's chairman indicated that the bank's board is at an advanced stage of the selection process for a new chief executive officer or CEO. Also, the Reserve Bank of India or RBI has advised the board to submit the proposal for appointment of the new CEO by 30 Jun 2025. Moreover, the chairman noted that IIB's board has worked with the management and statutory auditors to undertake an enhanced and more rigorous review of the financials for 4QFY25/FY25. All the issues brought to the board has been provided for and IIB looks to start the new financial year on a clean slate.

Concerns over management transition limiting a material rerating

IIB's valuation will continue to remain under pressure (trading at 0.8x F27F BV), mainly led by concerns around management transition. We trim earnings estimates as we lower our margin assumptions and build in elevated credit costs. Fresh accounting lapses and lower earnings reduces our FY27F BV estimate by 5% to ~Rs950. This impact will be partly offset by reduced risk-free rate (by 25bp to 6.75% vs. 7% earlier). Consequently, we trim our target price to Rs840 (Rs860 earlier), assigning a multiple of 0.9x on F27F BV. Retain HOLD rating. Upside risks: Better-than-expected asset quality outcome, clarity on management transition, & better-than-expected core margin progression. Downside risks: Further accounting/internal control lapses & worsening operational/asset quality outcomes.

Key highlights

- IIB's loan book grew by 1% YoY and declined by 5% QoQ. This was mainly owing to letting go of corporate loans (down 16% QoQ) to shore up liquidity (exit LCR at 136%). Vehicle loans grew by 8% YoY (+2% QoQ) and consumer loans, including business banking, were up 18% YoY (+6% QoQ). MFI loans declined by 5% QoQ (down 21% YoY), partly owing to reclassification of loans from standard assets to NPAs (amounting to Rs19bn).
- Gross slippage increased QoQ (Rs50bn vs. Rs22bn). Adjusted for MFI misclassification (Rs19bn), gross slippage stood at Rs31bn (3.7% annualized). Recovery & upgrades were broadly steady (Rs5.3bn vs. Rs4.8bn) while write-offs were materially higher QoQ (Rs18bn vs. Rs9.8bn). Headline GNPA's increased by 31% QoQ to Rs110bn and the GNPA ratio was up 88bp at 3.13%. PCR remained steady at 70%. This was helped by accelerated provisioning on misclassification of MFI exposure (i.e. ~95% provisioning; credit cost of ~200 bp) and utilization of contingent provision (Rs13.3bn; ~150bp of loans). Net NPA ratio increased QoQ (0.95% vs. 0.68%). The outstanding restructured loan book moderated to 12bp vs. 18bp last quarter. SMA 1&2 books collectively stood at 24bp vs. 20bp last quarter.
- MFI collection efficiency has been on an improving trend and new stress formation has been moderating. Management noted that the normalized trend is a few quarters away as the asset quality situation in some states is still evolving and has not yet stabilized. MFI guardrails have been implemented effective 1st Apr 2025. On disbursements, IIB noted that it would remain cautious in the MFI segment, but in the other segments its business as usual.
- The gems & jewellery portfolio stands at 2.6% of loans. Management noted that it is comfortable with the current portfolio and there is zero SMA 1 or 2 exposure.
- Corporate loan book slippage of Rs2bn includes a lumpy real estate account (Rs1.4bn). On a full-year basis, the slippage improved to 0.4% vs. 0.5% last year.
- Retail deposits per LCR grew by 9% YoY (down 2% QoQ) and contributed 45% to overall deposits vs. 44% last year. Management noted that it carries healthy liquidity with exit LCR at 136% as on 31 Mar 2025 (absolute excess liquidity of Rs620bn).

SOURCE: INCRED RESEARCH, COMPANY REPORTS

DISCLAIMER

This report (including the views and opinions expressed therein, and the information comprised therein) has been prepared by Incred Research Services Private Ltd. (formerly known as Earnest Innovation Partners Private Limited) (hereinafter referred to as "IRSPL"). IRSPL is registered with SEBI as a Research Analyst vide Registration No. INH000011024. Pursuant to a trademark agreement, IRSPL has adopted "Incred Equities" as its trademark for use in this report.

The term "IRSPL" shall, unless the context otherwise requires, mean IRSPL and its affiliates, subsidiaries and related companies. This report is not directed or intended for distribution to or use by any person or entity resident in a state, country or any jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject IRSPL and its affiliates/group companies to registration or licensing requirements within such jurisdictions.

This report is being supplied to you strictly on the basis that it will remain confidential. No part of this report may be (i) copied, photocopied, duplicated, stored or reproduced in any form by any means; or (ii) redistributed or passed on, directly or indirectly, to any other person in whole or in part, for any purpose without the prior written consent of IRSPL.

The information contained in this report is prepared from data believed to be correct and reliable at the time of issue of this report.

IRSPL is not required to issue regular reports on the subject matter of this report at any frequency and it may cease to do so or change the periodicity of reports at any time. IRSPL is not under any obligation to update this report in the event of a material change to the information contained in this report. IRSPL has not any and will not accept any, obligation to (i) check or ensure that the contents of this report remain current, reliable or relevant; (ii) ensure that the content of this report constitutes all the information a prospective investor may require; (iii) ensure the adequacy, accuracy, completeness, reliability or fairness of any views, opinions and information, and accordingly, IRSPL and its affiliates/group companies (and their respective directors, associates, connected persons and/or employees) shall not be liable in any manner whatsoever for any consequences (including but not limited to any direct, indirect or consequential losses, loss of profits and damages) of any reliance thereon or usage thereof.

Unless otherwise specified, this report is based upon reasonable sources. Such sources will, unless otherwise specified, for market data, be market data and prices available from the main stock exchange or market where the relevant security is listed, or, where appropriate, any other market. Information on the accounts and business of company(ies) will generally be based on published statements of the company(ies), information disseminated by regulatory information services, other publicly available information and information resulting from our research. While every effort is made to ensure that statements of facts made in this report are accurate, all estimates, projections, forecasts, expressions of opinion and other subjective judgments contained in this report are based on assumptions considered to be reasonable as of the date of the document in which they are contained and must not be construed as a representation that the matters referred to therein will occur. Past performance is not a reliable indicator of future performance. The value of investments may go down as well as up and those investing may, depending on the investments in question, lose more than the initial investment. No report shall constitute an offer or an invitation by or on behalf of IRSPL and its affiliates/group companies to any person to buy or sell any investments.

The opinions expressed are based on information which is believed to be accurate and complete and obtained through reliable public or other non-confidential sources at the time made (information barriers and other arrangements may be established, where necessary, to prevent conflicts of interests arising. However, the analyst(s) may receive compensation that is based on his/their coverage of company(ies) in the performance of his/their duties or the performance of his/their recommendations. In reviewing this report, an investor should be aware that any or all of the foregoing, among other things, may give rise to real or potential conflicts of interest. Additional information is, subject to the duties of confidentiality, available on request. The report is not a "prospectus" as defined under Indian Law, including the Companies Act, 2013, and is not, and shall not be, approved by, or filed or registered with, any Indian regulator, including any Registrar of Companies in India, SEBI, any Indian stock exchange, or the Reserve Bank of India. No offer, or invitation to offer, or solicitation of subscription with respect to any such securities listed or proposed to be listed in India is being made, or intended to be made, to the public, or to any member or section of the public in India, through or pursuant to this report.

The research analysts, strategists or economists principally responsible for the preparation of this research report are segregated from the other activities of IRSPL. Information barriers and other arrangements have been established, as required, to prevent any conflicts of interests.

The research analysts, strategists or economists principally responsible for the preparation of this research report are segregated from the other activities of IRSPL. Information barriers and other arrangements have been established, as required, to prevent any conflicts of interests.

IRSPL may have issued other reports (based on technical analysis, event specific, short-term views, etc.) that are inconsistent with and reach a different conclusion from the information presented in this report.

Holding of Analysts/Relatives of Analysts, IRSPL and Associates of IRSPL in the covered securities, as on the date of publishing of this report

Recommendation Framework**Stock Ratings**

Definition:

- Add** The stock's total return is expected to exceed 10% over the next 12 months.
- Hold** The stock's total return is expected to be between 0% and positive 10% over the next 12 months.
- Reduce** The stock's total return is expected to fall below 0% or more over the next 12 months.

The total expected return of a stock is defined as the sum of the: (i) percentage difference between the target price and the current price and (ii) the forward net dividend yields of the stock. Stock price targets have an investment horizon of 12 months.

Sector Ratings

Definition:

- Overweight** An Overweight rating means stocks in the sector have, on a market cap-weighted basis, a positive absolute recommendation.
- Neutral** A Neutral rating means stocks in the sector have, on a market cap-weighted basis, a neutral absolute recommendation.
- Underweight** An Underweight rating means stocks in the sector have, on a market cap-weighted basis, a negative absolute recommendation.

Country Ratings

Definition:

- Overweight** An Overweight rating means investors should be positioned with an above-market weight in this country relative to benchmark.
- Neutral** A Neutral rating means investors should be positioned with a neutral weight in this country relative to benchmark.
- Underweight** An Underweight rating means investors should be positioned with a below-market weight in this country relative to benchmark.
