Bosch Ltd

Regular business restructuring lifts margin

- 4QFY24 normalized EPS grew by 11% to Rs4.5bn aided by lower other expenses and tax, below our/Bloomberg consensus estimates.
- Regular business restructuring to hive off low growth & loss-making product lines aids in boosting the EBITDA margin and hence, our 9-12% EPS upgrade.
- However, core business challenges continue to impact sales growth and profitability, leading to our REDUCE rating, as the P/BV at +1SD is stretched.

Benign sales growth in 4QFY24 disappoints

Bosch's 4QFY24 sales grew by just 4% yoy to Rs42.3bn, below our estimate and Bloomberg consensus estimate. The sustained drop in other expenses qoq and yoy due to hiving off the project house mobility division aided a 30bp qoq and yoy rise in the EBITDA margin to 13.2%. Seasonality led purchased goods costs to rise sharply by 250bp qoq to 43.2% (Fig. 3), thereby impacting the gross margin. Other income involved Rs1.16bn income-tax refund of earlier years, adjusting for which the normalized PBT rose by just 2% yoy to Rs4.48bn. Lower tax provision led to normalized PAT growth of 11% yoy to Rs4.5bn, 7% below our/Bloomberg consensus estimates.

Management conference-call highlights

Management indicated that the 12% sales growth in FY24 was driven by two-wheeler (19%), building technologies (17%) and power tool segments. Exports formed just 8% of sales. Management plans to hive off the OEM diagnostics business in 1HFY25F, which posted Rs360m in sales. It plans to start local production of truck nozzles in FY25F and also exhaust gas treatment parts in FY26F. The new emission norms for 2Ws in Apr 2025F and for tractors in Apr 2026F to help the company supply more parts content per vehicle.

Regular low margin division hive-off aids EBITDA upgrade

Building in the hive-off benefits of the project house mobility division in Sep 2023 and the OEM diagnostics division in Jun 2024 on lowering other expenses led to our EBITDA margin upgrade of 40-80bp to around 13.5%. We maintain FY25F sales but raise FY26F sales by 1.5% due to new order wins for 2W OEMs. Strong other income and lower interest costs led to FY25F-26F EPS upgrade of 9-12%.

Stock underperformance to prevail; maintain REDUCE rating

The sharp rerating of Bosch stock in recent months on the back of low-margin/loss-making division hive-off benefits to profitability, we feel, is difficult to sustain as seen by the employee costs spiking after the big restructuring in FY23. We remain cautious of core business profitability returning to normalcy, with competition intensifying and the product mix shifting towards gasoline and electric vehicles or EVs. We roll forward our P/E-based target price to Rs22,600 for the EPS upgrade at 30xFY26F P/E. With the P/BV valuation rising to +1SD above the 10-year mean, we reiterate REDUCE rating on the stock. The key upside risk is quick localization's benefits aiding the company's profitability.

Regular business restructuring lifts margin

Management conference-call highlights >

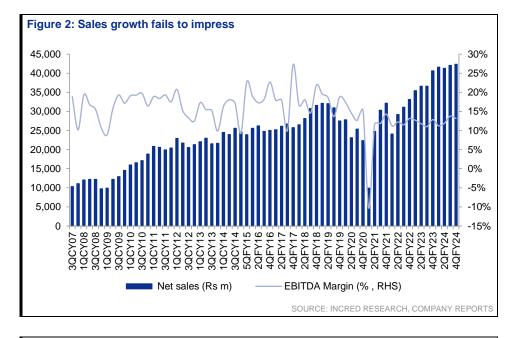

- Financial performance: The EBITDA margin stood at 13.2% in 4QFY24 vs. 12.9% in 4QFY23, which was mainly attributable to increased revenue and lower other expenses. PAT for the quarter grew by 41.4% yoy, which includes a one-time credit of Rs1.16bn income-tax refund.
- **Mobility business**: In FY24, the mobility business grew by 11.1% yoy on the back of power solutions business, which witnessed a growth of 10.9% yoy aided by the growth in sales of sports utility vehicle or SUV and heavy commercial vehicle segments and also higher content per vehicle, mainly exhaust gas treatment components.
- **Mobility aftermarket**: The business grew by 10.2% yoy, driven by higher sales of spark plugs, lubricants and filters owing to higher demand. The company currently has 50,000 retail touchpoints spanning across 650 districts, offering a range of over 15,000 parts. Additionally, the division operates over 1,200 authorized workshops and service centres. Furthermore, the segment has ventured into the home segment with the introduction of Bosch inverter battery for power back-up solutions.
- **Two-wheeler business**: The division witnessed a growth of 19.2% yoy, driven by higher sales of fuel injectors and exhaust sensors to TVS Motor Company and Bajaj Auto. Stable semiconductor supplies, new customer acquisitions and new projects will likely support growth in the division.
- **Consumer goods:** The consumer business grew by 15.8% because of higher sales of tools and accessories due to a market campaign and new product launches in the case of grinders and cutters. Manufacturing accounted for 30% of the total power tool sales in India and the company gained market share across categories. The focus will be on cordless tools, industrial tools, dealer engagement and innovative new product launches tailored to the medium- and entry-level segments. The cordless tool segment reached approximately 11% of total sales, marking its first double-digit contribution.
- **Building technologies**: The building technologies business witnessed a growth of 17% yoy, mainly on account of execution of a higher number of orders for installation of security cameras.
- **Hydrogen engine:** The company has developed its first hydrogen engine demo truck in India and introduced this technology to a diverse array of OEMs. Bosch's power solutions division will help vehicle manufacturers in transitioning from their dependency on conventional liquid fuels to alternate low-to-zero carbon fuels. However, conventional fuels like diesel and gasoline will remain relevant until the alternate energy infrastructure becomes more widespread.
- **Exports**: Exports contributed 8.1% to total net sales in FY24, and the target is to improve their contribution to 10% of sales.
- On-board diagnostic-2 norms or (OBD 2) for two-wheelers: The company is proactively prepared for OBD-2 regulations upgrade by making investments in lambda sensor technology and is expecting a substantial surge in demand in FY26F.
- Localization: Management's endeavour is to localize its entire portfolio to the 90-95% level, as the company is getting support from OEMs and the government. Localization is likely to help the company to improve its margins. Management has already taken a decision to localize exhaust solutions and the project will be commissioned in Apr 2025F.
- **TREM-5 norms:** Management expects the TREM-5 norms for tractors to be implemented by the government in Apr 2026F.
- **Capex:** Since the last couple of years, the capex on a yearly basis is in the range of Rs3-6bn, and the trend is likely to continue in FY25F-26F.

DISCLAIMER

This report (including the views and opinions expressed therein, and the information comprised therein) has been prepared by Incred Research Services Private Ltd.(formerly known as Earnest Innovation Partners Private Limited) (hereinafter referred to as "IRSPL"). IRSPL is registered with SEBI as a Research Analyst vide Registration No. INH000011024. Pursuant to a trademark agreement, IRSPL has adopted "Incred Equities" as its trademark for use in this report.

The term "IRSPL" shall, unless the context otherwise requires, mean IRSPL and its affiliates, subsidiaries and related companies. This report is not directed or intended for distribution to or use by any person or entity resident in a state, country or any jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject IRSPL and its affiliates/group companies to registration or licensing requirements within such jurisdictions.

This report is being supplied to you strictly on the basis that it will remain confidential. No part of this report may be (i) copied, photocopied, duplicated, stored or reproduced in any form by any means; or (ii) redistributed or passed on, directly or indirectly, to any other person in whole or in part, for any purpose without the prior written consent of IRSPL.

The information contained in this report is prepared from data believed to be correct and reliable at the time of issue of this report.

IRSPL is not required to issue regular reports on the subject matter of this report at any frequency and it may cease to do so or change the periodicity of reports at any time. IRSPL is not under any obligation to update this report in the event of a material change to the information contained in this report. IRSPL has not any and will not accept any, obligation to (i) check or ensure that the contents of this report remain current, reliable or relevant; (ii) ensure that the content of this report constitutes all the information a prospective investor may require; (iii) ensure the adequacy, accuracy, completeness, reliability or fairness of any views, opinions and information, and accordingly, IRSPL and its affiliates/group companies (and their respective directors, associates, connected persons and/or employees) shall not be liable in any manner whatsoever for any consequences (including but not limited to any direct, indirect or consequential losses, loss of profits and damages) of any reliance thereon or usage thereof.

Unless otherwise specified, this report is based upon reasonable sources. Such sources will, unless otherwise specified, for market data, be market data and prices available from the main stock exchange or market where the relevant security is listed, or, where appropriate, any other market. Information on the accounts and business of company(ies) will generally be based on published statements of the company(ies), information disseminated by regulatory information services, other publicly available information and information resulting from our research. Whilst every effort is made to ensure that statements of facts made in this report are accurate, all estimates, projections, forecasts, expressions of opinion and other subjective judgments contained in this report are based on assumptions considered to be reasonable as of the date of the document in which they are contained and must not be construed as a representation that the matters referred to therein will occur. Past performance is not a reliable indicator of future performance. The value of investments may go down as well as up and those investing may, depending on the investments in question, lose more than the initial investment. No report shall constitute an offer or an invitation by or on behalf of IRSPL and its affiliates/group companies to any person to buy or sell any investments.

The opinions expressed are based on information which are believed to be accurate and complete and obtained through reliable public or other nonconfidential sources at the time made. (Information barriers and other arrangements may be established where necessary to prevent conflicts of interests arising. However, the analyst(s) may receive compensation that is based on his/their coverage of company(ies) in the performance of his/their duties or the performance of his/their recommendations. In reviewing this report, an investor should be aware that any or all of the foregoing, among other things, may give rise to real or potential conflicts of interest. Additional information is, subject to the duties of confidentiality, available on request. The report is not a "prospectus" as defined under Indian Law, including the Companies Act, 2013, and is not, and shall not be, approved by, or filed or registered with, any Indian regulator, including any Registrar of Companies in India, SEBI, any Indian stock exchange, or the Reserve Bank of India. No offer, or invitation to offer, or solicitation of subscription with respect to any such securities listed or proposed to be listed in India is being made, or intended to be made, to the public, or to any member or section of the public in India, through or pursuant to this report.

The research analysts, strategists or economists principally responsible for the preparation of this research report are segregated from the other activities of IRSPL. Information barriers and other arrangements have been established, as required, to prevent any conflicts of interests.

The research analysts, strategists or economists principally responsible for the preparation of this research report are segregated from the other activities of IRSPL. Information barriers and other arrangements have been established, as required, to prevent any conflicts of interests.

IRSPL may have issued other reports (based on technical analysis, event specific, short term views etc.) that are inconsistent with and reach different conclusion from the information presented in this report.
