

India

Overweight (no change)

Highlighted Companies

APL Apollo Tubes ADD, TP Rs1814, Rs1547 close

The company reported sales volume growth of 5% yoy in its 4Q business update. HRC steel price decline was very gradual in 4Q, aiding sales volume. Better sales mix will lead to a lower fall in realization yoy. We estimate EBITDA/t at Rs4,800 in 4QFY24F.

Polycab India ADD, TP Rs5465, Rs5302 close

Quarterly PAT to surpass Rs5bn for the first time ever due to strong local demand from a diversified customer base (B2C, B2B, B2G) and a recovery in export deliveries in 4QFY24F. The sharp rise in copper prices (~10%) during Mar 2024 remains an upside risk as trade channels resort to upstocking. FMEG business to be soft. Consolidated EBITDA margin to be maintained at ~14%.

Orient Electric

ADD, TP Rs269, Rs211 close

We expect strong topline growth due to seasonal demand and a low base. Margins will remain soft as higher opex investments continue. Progress on new CEO appointment and Phase-1 commissioning of Hyderabad plant to be monitored.

Summary Valuation Metrics

P/E (x)	Mar24-F	Mar25-F	Mar26-F

Industrial - Overall

4Q preview: Durables and building materials

- The quarter saw a similar qoq demand trend while supply rose. Good primary pick-up in summer-dependent products. Building materials trend was weak.
- Cable/wire, fan, air-conditioner, plastic pipe likely to display good sales volume growth. Other FMEG, wood panel, bathware and tiles show weakness.
- Good 4Q: Polycab, KEI, V-Guard. Weak 4Q: Havells, CG Consumer, Orient Electric, Astral, Supreme, Finolex Industries, Century Plyboard, Cera, Kajaria.

FMEG business trend constant qoq; building materials trend gloomy

Our interactions with company managements and channel check indicate no material change in the FMEG and small domestic appliances segments qoq as demand remained weak. The building materials demand-supply equilibrium was balanced till Dec 2023, but wood panel, bathware and tiles have seen a meaningful deterioration in 4QFY24. FMEG remains fiercely competitive and new brands (~2-to-3-year-old) disturb market share economics for incumbents periodically. Cables and wires have also seen revival/entry of old/new brands both in North and West India. Prices of key raw materials such as aluminium, copper, hot-rolled coil steel, plastic and chemicals have been range-bound in Jan-Feb 2024. Timber prices remain elevated. We note that North India demand trend was weaker vs. West and South India. Regional competition, oversupplied local market and imports have led to slower sales growth for wood panels (medium density fibre, particle boards), tiles and bathware (sanitaryware and faucets) for our coverage universe in 4Q.

Our expectations from consumer durable companies

We expect our cumulative coverage universe to deliver revenue/EBITDA/PAT growth of 13-14% yoy, with cable and wire (C&W) companies to continue their outperformance over FMEG peers. The extended winter season in North India led to West and South India brands doing relatively better in seasonal summer product sales. Fans, coolers and room air-conditioners have seen marginal price hikes and healthy primary fills in Mar 2024. Higher ad spends and one-time Extended Producer Responsibility (EPR) provisions will restrict EBITDA margin expansion yoy (ex-V-Guard Industries) in 4Q. We would monitor capex progress for Havells India – cables/refrigerators, Polycab India – EHV cables, Orient Electric – fans, KEI Industries – cables/wires, and Finolex Industries – optic fibre. V-Guard Industries, Polycab and KEI Industries to report a relatively better 4Q performance.

Our expectations from building material companies

We expect a revenue growth of 4% yoy and EBITDA/PAT to decline by 6-12% yoy for our cumulative coverage universe (high base). We estimate strong sales volume growth (18-25% yoy) for plastic pipes while low single-digit growth for structural steel pipes, wood panels, bathware and tiles. We expect reported EBITDA margin to decline yoy across our coverage universe (ex-Kajaria Ceramics) due to no inventory gains (plastic pipes).

What do we prefer?

Based on current PE-G matrix, we prefer APL Apollo, Polycab India, and Orient Electric.

DISCLAIMER

This report (including the views and opinions expressed therein, and the information comprised therein) has been prepared by Incred Research Services Private Ltd.(formerly known as Earnest Innovation Partners Private Limited) (hereinafter referred to as "IRSPL"). IRSPL is registered with SEBI as a Research Analyst vide Registration No. INH000011024. Pursuant to a trademark agreement, IRSPL has adopted "Incred Equities" as its trademark for use in this report.

The term "IRSPL" shall, unless the context otherwise requires, mean IRSPL and its affiliates, subsidiaries and related companies. This report is not directed or intended for distribution to or use by any person or entity resident in a state, country or any jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject IRSPL and its affiliates/group companies to registration or licensing requirements within such jurisdictions.

This report is being supplied to you strictly on the basis that it will remain confidential. No part of this report may be (i) copied, photocopied, duplicated, stored or reproduced in any form by any means; or (ii) redistributed or passed on, directly or indirectly, to any other person in whole or in part, for any purpose without the prior written consent of IRSPL.

The information contained in this report is prepared from data believed to be correct and reliable at the time of issue of this report.

IRSPL is not required to issue regular reports on the subject matter of this report at any frequency and it may cease to do so or change the periodicity of reports at any time. IRSPL is not under any obligation to update this report in the event of a material change to the information contained in this report. IRSPL has not any and will not accept any, obligation to (i) check or ensure that the contents of this report remain current, reliable or relevant; (ii) ensure that the content of this report constitutes all the information a prospective investor may require; (iii) ensure the adequacy, accuracy, completeness, reliability or fairness of any views, opinions and information, and accordingly, IRSPL and its affiliates/group companies (and their respective directors, associates, connected persons and/or employees) shall not be liable in any manner whatsoever for any consequences (including but not limited to any direct, indirect or consequential losses, loss of profits and damages) of any reliance thereon or usage thereof.

Unless otherwise specified, this report is based upon reasonable sources. Such sources will, unless otherwise specified, for market data, be market data and prices available from the main stock exchange or market where the relevant security is listed, or, where appropriate, any other market. Information on the accounts and business of company(ies) will generally be based on published statements of the company(ies), information disseminated by regulatory information services, other publicly available information and information resulting from our research. Whilst every effort is made to ensure that statements of facts made in this report are accurate, all estimates, projections, forecasts, expressions of opinion and other subjective judgments contained in this report are based on assumptions considered to be reasonable as of the date of the document in which they are contained and must not be construed as a representation that the matters referred to therein will occur. Past performance is not a reliable indicator of future performance. The value of investments may go down as well as up and those investing may, depending on the investments in question, lose more than the initial investment. No report shall constitute an offer or an invitation by or on behalf of IRSPL and its affiliates/group companies to any person to buy or sell any investments.

The opinions expressed are based on information which are believed to be accurate and complete and obtained through reliable public or other non-confidential sources at the time made. (Information barriers and other arrangements may be established where necessary to prevent conflicts of interests arising. However, the analyst(s) may receive compensation that is based on his/their coverage of company(ies) in the performance of his/their duties or the performance of his/their recommendations. In reviewing this report, an investor should be aware that any or all of the foregoing, among other things, may give rise to real or potential conflicts of interest. Additional information is, subject to the duties of confidentiality, available on request. The report is not a "prospectus" as defined under Indian Law, including the Companies Act, 2013, and is not, and shall not be, approved by, or filed or registered with, any Indian regulator, including any Registrar of Companies in India, SEBI, any Indian stock exchange, or the Reserve Bank of India. No offer, or invitation to offer, or solicitation of subscription with respect to any such securities listed or proposed to be listed in India is being made, or intended to be made, to the public, or to any member or section of the public in India, through or pursuant to this report.

The research analysts, strategists or economists principally responsible for the preparation of this research report are segregated from the other activities of IRSPL. Information barriers and other arrangements have been established, as required, to prevent any conflicts of interests.
